Master Builders of Bespoke Private Homes

Over the years we have built hundreds of new homes and renovated some wonderful buildings. In each and every one of our projects, one thing has stood out; the reaction of our purchasers when they see the finished product.

It's the detail and the special features that make it a home rather than a house.

Why choose a Waters home?
Whilst the bricks and the mortar are really important (trust us, we build to the best standards) we strive to create developments where the style of the homes is influenced by the surrounding architecture and exemplar environments so that we can deliver homes that are as distinctive as you are.

We take our time, explore great designs, walk the streets and take inspiration from our experiences so that you get the home you deserve with character. So, whether it's the feature window, the framed view or the way the light cascades down the stairs you can be assured that we've thought it all through.
